

KIRAN ARUN NANDI

Computer Engineering Student | Cloud & Network Automation Engineer

Phone: +91-8530431501 • Email: nandikiran15@gmail.com • Web: kiran-nandi.web.app

LinkedIn: linkedin.com/in/kiran-nandi-76a003288 • GitHub: github.com/devinxhacker

PROFESSIONAL SUMMARY

Results-driven Computer Engineering student (9.05 CGPA, Top-5 Ranker) and Smart India Hackathon 2024 Winner. Specializing in enterprise routing and switching architectures, network security hardening, and Python-driven network automation. Hands-on expertise configuring Cisco topologies, dynamic routing protocols (OSPF, BGP), VLAN segmentation, WLCs, and Extended ACL boundary protection. Adept at building secure Java (Spring Boot) backend APIs and deploying scalable, serverless cloud architectures on AWS (Lambda, S3, EC2).

EDUCATION

B.Tech. in Computer Engineering	MIT Academy of Engineering, Pune	2023 – Present CGPA: 9.05/10
12th Grade (MSBSHSE)	SNBP Junior College, Pune	2021 – 2023 Percentage: 88.0%/100
10th Grade (MSBSHSE)	Abhishek Vidyalayam, Pune	2020 – 2021 Percentage: 96.0%/100

EXPERIENCE & TECHNICAL INTERSHIPS

Cisco Virtual Intern (Networking & Cyber Security)

Jul 2025 – Oct 2025

Cisco Networking Academy

Virtual

- Developed a Python graph modeling CLI engine to dynamically parse unstructured router configuration files.
- Automated physical link conflict parsing, flagging redundant paths, unconnected interfaces, and dynamic OSPF route states.
- Audited simulated security boundaries by writing strict firewall rules and Access Control Lists to isolate network assets.

Java Full Stack Developer Intern

Jun 2025 – Aug 2025

Campus Credentials

Pune, India

- Engineered an AI-driven natural-to-SQL backend querying interface, optimizing manual data retrieval workflows to 95% accuracy.
- Secured 57 modular REST API endpoints using Spring Security frameworks with JSON Web Tokens (JWT) and RBAC.
- Optimized end-to-end booking life cycles in Spring Boot to scale transaction load processing by 90%.

Cloud Developer Industrial Training

Jan 2026 – Mar 2026

Internvision

Virtual

- Engineered an event-driven AWS serverless text-processing pipeline using S3, Lambda, and SNS for real-time email execution.
- Deployed secure Ubuntu EC2 web environments, tailoring Security Groups to restrict SSH ports and expose safe public HTTP lanes.
- Implemented access controls following least-privilege IAM Execution Roles, capturing logs via CloudWatch log integrations.

FEATURED PROJECTS

Automated Network Topology & Simulation Tool

Jul 2025 – Aug 2025

Python, Multi-threading, Queue-Based IPC

- Created a network auditing application that builds logical graph layouts of Routers, Interfaces, and Subnet Links.
- Programmed thread-safe concurrent router instances communicating via `queue.Queue` blocks to simulate OSPF dynamic fault-handling processes in real-time under mock route degradation scenarios.

Campus Network Design & Hardening Sandbox

Feb 2026

Cisco Packet Tracer, Wireshark, OpenVAS

- Built a hybrid campus topology with segmented departmental VLANs and unified Wireless LAN Controllers (WLCs).
- Implemented Extended ACLs and URL domain filtering at the main router level, reclaiming 30% of choked academic bandwidth.
- Inspected transport packets with Wireshark and evaluated system endpoints using OpenVAS to remediate unpatched configurations.

TECHNICAL SKILLS & CERTIFICATIONS

TECHNICAL SKILLS

- **Languages:** Java, Python, C/C++, SQL, HTML/CSS
- **Frameworks/Tools:** Spring Boot, Spring Security (JWT, RBAC), Git, GitHub, REST APIs
- **AWS Cloud:** EC2, S3, Lambda, SNS, IAM, CloudWatch
- **Networking:** Packet Tracer, Wireshark, OpenVAS, VLAN, ACL, WLC, Subnetting (VLSM), OSPF, BGP
- **Core Concepts:** DSA, OOP, Multithreading, Agile

CERTIFICATIONS

- **Cisco CCNA Sequence:** Complete (Oct–Nov 2025)
- **Cisco Professional Specializations:**
 - Introduction to Modern AI (Jun 2026)
 - Data Analytics Essentials (Jun 2026)
 - Apply AI: Customer Reviews (Jun 2026)
 - Introduction to Data Science (Jun 2026)
- **Python & Others:** PCAP (Python Essentials 1 & 2, Jun 2026), AWS re/Start Graduate, PMI-PMP (Agile)

ACHIEVEMENTS & LEADERSHIP

- **Smart India Hackathon (SIH) 2024 Winner:** National Champion for building an LLM assistant reducing query overhead by 80%.
- **Avinya 2025 Undergraduate Conference:** Awarded *Best Paper* for outstanding technical research in systems engineering.
- **Industry Project Award Winner:** Recognized at the Google Developer Group (GDG) Club Hackathon.
- **Competitive Excellence:** Datathon 2025 Winner; qualified for GATE 2026; ranked in the Top-5 in Department (100+ peers).
- **Technical Lead (CodeChef MITAOE):** Selected for the elite Super-30 mentors batch; manage technical strategy for campus club.

PERSONAL DETAILS, INTERESTS & PROFILES

ACTIVITIES & INTERESTS

- **Co-Curricular:** Drawing
- **Hobbies:** Bug Solving

WEB LINKS & PROFILES

- **CodeChef:** while_flies_62
- **WhatsApp:** +91-8530431501

PERSONAL DATA

- **Details:** Male | Born 15 Jan 2006 | Single
- **Languages:** English, Hindi, Marathi
- **Address:** Moshi, Pune, MH, India
